**Re: Project, Permit No. M-1980-244;  
Technical Revision (TR-100) Addendum Approval**

Dear Mr. Schaffner:

On November 26, 2018 the Division of Reclamation, Mining and Safety received your emailed response to our November 21, 2018 addendum adequacy letter. The Division has reviewed your responses and approved the Technical Revision addendum to TR-100 addressing the following:

*VLf2 Liner Inspection*

The terms of the Technical Revision No. 100 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division has reviewed the change associated with the TR-100 addendum for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability. Therefore, the surplus warranty remains at \$301,512.00, last adjusted with the approval of TR 107 on November 15, 2018. Please note TRs 104 and 108 are currently under review by the Division, and may or may not have impacts on the financial warranty.

If you have any questions or need further information, please contact me at (303)866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.
