Hello Connie,

As of today, DRMS has partially approved the bond release request to retain liability on 5.21 acres and \$100,000.00. However in order to track this change within our system, I had to technically deny the SL01 request, initiate an acreage reduction request (AR03) and approve that. This is more for our tracking purposes than anything, so after the thirty day appeal period ends you will receive a letter from us approving an acreage/liability reduction (AR03) and denying the full site release.

Please let me know if you have any questions,

Jared

Hi Jared - attached are copies of a TR request with regard to removing tree/shrub plantings from reclamation and a revised release request to exclude the 5.2 +/- acre wetland area from release. Hard copies of both of these items were placed in today's mail.

I know you can't do much, especially with the TR, until you get the hard copy with the TR fee check, but just wanted to give you a heads up.

Thanks - Connie
