

Notes:

Please refer to the 2018 Annual Report Map for location of the areas of disturbance in the mine. We continued to remove material from stockpiles and the mined area. No reclamation is required at this time. The markings and colors noted in the text reference areas shown on the map.

(9) Mining will continue on the mine face and we mined into the stripped area this year on approximately 0.7 acres (brown). There is 4.9 acres currently stripped (yellow), we may strip addition area, if needed, south of the current mining face. There is 17.4 acres of stockpile area in use (orange).

(10) No reclamation is required next year, but the slopes along the west side of the floor area and south slope on the fence was sloped. The reclaimed areas (green) continue to be monitored and are growing as expected.

(14) Weed control was done in June 2018 this year in accordance with the Weed Management Plan on the perimeter of the mine and spot work was done on the mine floor areas and roadways. Escort and 2-4-D was applied as needed. Weed control will continue in 2019.

(19) The current bond is \$117,150 and was last increased in January 2017 after an normal inspection indicated more was needed.
