Dear Mr. Cazier,

I am writing to comment on the proposed mining exploration permits by Zephyr for the Grape Creek WSA. I am one of many who value that area for its intrinsic beauty, recreational value, and unique history -- geologic and human. We believe that this is a unique wilderness area and a rich opportunity for preservation. We would be concerned about any activities that would threaten that current and future resource.

I hope you will express my awareness and concern to all interested parties and let me know if there is anything else I can do to help.

Thank you!

Steve Elder
