**Re: Fountain Pit, Permit No. M-1981-307;
Acreage Reduction Approval, Revision No. AR-1**

Dear Mikulas:

On December 10, 2018, the Colorado Division of Reclamation, Mining and Safety (DRMS) approved your request for release of a portion of the permit area from further reclamation responsibility.

The permit area was reduced to 585.00 acres (with a maximum allowed affected area of 430 acres), through the release of 20.00 acres in this permit action. Because the permit is not totally released, you are still liable for filing annual reports and fees.

The DRMS received a comment from the Division of Water Resources, which is enclosed for your records.

If you have any questions, please contact me.

Sincerely,

Timothy A. Cazier, P.E.
Environmental Protection Specialist
