**Re: Varra Companies, Inc., Western Sugar Project, File No. M-2010-049,  
Technical Revision No. 5 (TR-05) Adequacy Review**

Mr. Janes,

The Division of Reclamation, Mining and Safety (Division/DRMS) has reviewed the content of the technical revision (TR-05) for the Western Sugar Project submitted on November 27, 2018 and submits the following comments. The Division is required to make an approval or denial decision no later than December 27, 2018 therefore; a response to the following adequacy review concern should be submitted to the Division as soon as possible.

1. The Division currently holds a financial warranty in the amount of \$292,210.00 for the Western Sugar Project. The Division calculated the required financial warranty associated with the revision proposed by the Operator at \$436,400.00, an increase of \$144,190.00. The estimate was based on the Division's original 2011 estimate, the Division's 2012 estimate for TR-02 – Flood Control Plan and the Operator's estimate associated with TR-05. Copies of the financial warranty estimate summary pages from 2011 and 2012 and a full copy of the Division's estimate for TR-05 are attached for review.
