**Re: Holcim (US) Inc. – Boettcher Limestone Quarry Inspection
Request for Extension**

Ms. Eschberger,

Holcim is formally submitting this request for an extension on closing and implementing corrective actions to the two inspection topics cited in your report. Specific reasons for this requested extension are as follows:

Hydrologic Balance (Ponded Water)

Holcim has been work with the Colorado Division of Water Resources (DWR) to determine an exact amount for the replacement requirement. We have determined (and have received verbal agreement) that Holcim has a replacement requirement of up to 5 acre-feet per year of water from the ponds on the property. As such, Holcim has reached out to the City of Greeley to propose a water lease agreement that would satisfy DWR. Once the agreement is finalized, Holcim will submit an augmentation plan to DWR and request the Division sign off on the plan.

Greeley is still reviewing Holcim's proposal and has not yet officially responded. Depending on Greeley's final decision, Holcim will immediately move to finalize the lease OR we will have to seek an agreement with a different entity.

Please contact me at 719.288.1423 if you have any questions regarding this matter.

Sincerely,

A handwritten signature in black ink that reads 'Derrick Dease'.

Amy,

It just dawned on me that failed to submit the extension request for the Ponded Water corrective action in the Boettcher inspection report. It just slipped my mind....no excuses.

I'm attaching an extension request for this item. The gist is that I'm still waiting for Greeley to meet with their board and render a decision on our proposal. However, next week, we will meet internally to try to identify an alternate source for water as this process has already taken quite some time.

Hi Amy,
I'd like to request a 4-month extension. I'm hopeful that I'll either get movement with Greeley or we will have secured an agreement with a different entity by then. At that point, it will depend on how quickly I can get sign off from DWR.

Derrick
