17 December 2018

SUBJECT: Request for Extension, Technical Revision Application and Exhibits, M-2011-014
Schmidt Site

Mr. Lucas West, Environmental Protection Specialist
Colorado Division of Reclamation Mining and Safety
1313 Sherman Street, Room 215
Denver, CO 80203

Dear Mr. Lucas:

I am requesting an extension to submit information as requested in your letter of 29 November 2018, to 7 January 2019. Your letter had suspense of 17 December 2018. I also request, and approve as necessary any needed extension of the Division's decision date on the TR.

I apologize for the delay in submitting this, as in our relocation from Moab a number of files have been misplaced, and I expected to have the needed information to you by today. A number of other urgent matters have also taken time from this, and will occupy our time for the next couple of weeks, hopefully to be resolved before the next holidays!

We understand the need for County approval and related actions. We will again solicit all owners of significant, permanent, manmade structures to accept an indemnity agreement.

We are presently at a location without working printers, so a hard copy of this request will be printed out later today, and mailed to the Division office in Denver (probably from Evans, CO).

If you have any questions, please contact the undersigned at WASTELINE, Inc. at 970-564-1380 or 605-939-0650 email: Wasteline.84532@gmail.com.

Sincerely,

Nathan A. Barton, CE, PE, DEE,
Environmental and Permitting Compliance Engineer
