RE: Request to extend the submittal date for Pueblo West Pit, File No. M-1977-573 TR
Corrective Action Date from January 10, 2019 to February 10, 2019

Dear Mr. Lennberg,

Transit Mix Concrete Co. of Pueblo/Continental Materials Corp. (TMCCOP/CMC) requests the Corrective Action due date for submittal of the Technical Revision (TR) for the Pueblo West Pit, File No. M-1977-573, be extended from January 10, 2019 to February 10, 2019.

We would like to include the Finger Lake area into the requested TR if the Colorado Division of Parks and Wildlife (CDPW) determine it requires additional reclamation measures. Therefore, we will need time for meeting(s) with the CDPW. In addition, the CDPW may require a site visit. A site visit would likely include the presence of the Division of Reclamation, Mining and Safety (CDRMS).

Given the Finger Lake area is stable and vegetated; an extension should not result in any environmental harm or off-site damage. We therefore request the TR submittal date extension.

Respectfully,

H. Bruce Humphries
