A weed control plan is in place for the Jefferson County Pine Junction Pit. It consists of Spring and fall property inspections to identify noxious weed species which may be present, followed by any necessary chemical applications. A fall inspection showed Mullein, Kochia, Knapweed, Russian and Canada thistle, Myrtle Spurge, Toadflax and Scentless Chamomile. We treated seven acres of weeds on 8/28/18 between 7:00am and 3:00pm using Hi-Dep and Vista.
