Map 4 Knappweed Control

Permit No. M-1981-107 Buster Quarries January 4, 2019

Map prepared by Bernard Buster

We did not receive our normal compliment of H-2B visa workers last summer since the H-2B program was over subscribed. As a result, we were missing 25 workers for the season. This worker shortage severely impacted our company. We were put in survival mode and could spare only one worker working part-time only on Knappweed control.

The treated area was subjected to physical eradication in the areas of high concentration of Knappweed
