Hi Jared,

I have a quick question in regards to our Weaver Quarry (M-1989-010). The second temporary cessation period is about to end (March 26th of 2019). We are planning to resume operations here in the near future before that time. What do you need from us to notify you of this and are you the one overseeing this site? As always, thanks for your help and time Jared. Hope all is well your way. Take care.

Clinton D. Beck, P.E.

Hello Mr. Beck,

This e-mail notification that your are going to re-initiate operations is all DRMS really needs. If you would like, I will initiate an administrative revision and take this site out of temporary cessation and place it into active status now? Or if you would like to wait until you are closer to actually initiating operations that if fine to, just let me know in advance when you re-initiate operations. In answer to your second question; yes, I am the specialist assigned to this site.

Please let me know if you have any questions,

Thanks,

Jared

Thanks Jared. I would appreciate if you went ahead and initiated an administrative revision to take this site out of temporary cessation. The mine plans have been firmed up and I would hate for this notice to fall of my radar. Thanks again Jared.

Good morning Mr. Beck,

I have placed this site back into active status. I will be sending you this letter for your records.

Thanks,

Jared
