***RE: MR Nick Prospecting Operation, File No. P-2018-017, NOI Application Adequacy Review***

Mr. Reams:

The Division of Reclamation, Mining and Safety (Division) is in the process of reviewing the above referenced application in order to ensure that it adequately satisfies the requirements of the Colorado Mined Land Reclamation Act (Act) and the associated Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations (Rules). During review of the material submitted, the Division determined that the following issue(s) of concern shall be adequately addressed before the application can be considered for approval.

1. Please provide the expected depth and diameter for each of the drill holes.
2. Please state whether or not mud pits will be constructed at the drill pads. If so, please provide the dimensions of the mud pits.
3. Please provide the seed mixture to be used for reclamation. The seed mixture should include the name and the seeding rate (pounds live seed per acre) for each plant species.

Please submit your responses to the above listed issues within 60 days.

Sincerely,

***Dustin Czapla***
