Brock,

Per our conversation on some of the errors within the TR-85 adequacy response items, I have attached corrected materials. We have corrected this issues as follows:

- Added Mel Staats in as a surface owner on record within the permit boundary.
- Added Kirwood in as a surface owner on record within the permit boundary.
- Corrected the total permit acreage in Section 2.03.8.
- Corrected the total permit acreage on Table 2.04.3-2 (for now we are going to retain both of these tables).
- We are also providing a signed letter from Mr. Staats to retain the C-18 ditch as an adjacent support facility area on his property. This will be inserted into Attachment 2.05.4(2)(e)-12. That being said, we also have to update Map 2.05.4-5. I will send you a pdf here soon, and the signed hard copies will be in the mail to you tomorrow.

Let me know if you have further questions.
