Re: Spring Creek Pit, Permit No. M-1994-097 Technical Revision Application TR-4

Jason Burkey:

On January 8, 2019, the Division of Reclamation, Mining and Safety received your Technical Revision application **TR-4** for the Spring Creek Pit Permit No. **M-1994-097**, which is located in Montrose County. Preliminary review of the information received determined that the following items must be received before the Division can consider your application as being submitted and technical review can begin:

- You have identified the neighboring pit is the Base Products Gravel Pit 1, Permit M-1994-053, Operated by Rock Pile, LLC. Please provide a signed and notarized agreement, executed by both parties that outlines the commitments of the stormwater separation berm, as well as any and all operating and reclamation commitments that apply. This document will be added to file M-1994-053 as well as M-1997-097.

Please submit the requested information no later than Wednesday February 6, 2019 to allow the Division sufficient time to review. If the required information is not received your Technical Revision application may be denied and need to be re-submitted. If you have any questions please feel free to contact me at the Division's Grand Junction Field Office, by phone at (970) 243-6368 or by email at lucas.west@state.co.us.

Sincerely,

Lucas J. West
