RE: Raftopoulos Pit, Permit No. M-1998-003, Inspection Problem Abated

Dear Mr. Baker:

On August 7, 2018 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Revegetation was cited as a problem for the presence of excessive noxious weeds. Corrective actions required you submit a noxious weed management plan in the form of a technical revision by the corrective action date.

On January 22, 2019 the Division approved your technical revision request (TR-1). This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell
