**Re: Technical Revision Approval, Revision No. TR-109, Cresson Project, Permit No. M-1980-244**

Dear Mr. Schaffner:

On February 5, 2019, the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on December 4, 2018, addressing the following:

*High Grade Mill Modification: addition of two new pipelines and the utilization of existing vat leach tanks for surge capacity of neutral pH process solution.*

The terms of the Technical Revision No. 109 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division has reviewed the change associated with TR-109 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you need additional information or have any questions, please contact me at the Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at [elliott.russell@state.co.us](mailto:elliott.russell@state.co.us).

Sincerely,

Elliott R. Russell
