To: "Russell - DNR, Elliott" <elliott.russell@state.co.us>

Good afternoon Elliott.

Here is the updated PDF with the locations outlined. We included both sign locations for those posted at the proposed dig site and the ones posted at the entry locations.

Let me know if you need anything else.

Thanks!

Jim

Hey Jim,

The Division just received your responses to the Notice of Deficiencies on the JJ Collecting Project #1 (File No. M-2018-064).

I have one quick question that needs to be addressed prior to the application being considered complete for filing. Can you depict where the two on-site notices were posted? You could do this by emailing me a simple Google Earth map showing the location of the proposed activities and the location of notice signs. I recall we discussed alternative locations since the forest has limited access during the winter months, but I want this to be known for the record.

Thanks,

Elliott Russell
