Dear Mr. Simmons,

Thank you for the review on the Terror Creek permit. You have attached bonding calculations that I do not agree with. As you know most the coal handling facilities have been removed, but the bonding calculations still include \$134,094 for removal of such facilities. This is in error. Please let me know the proper channels to protest this calculation or how to submit our own calculation for this site.

Thank you for your assistance.

Michael W Ludlow
