**RE: River Road Pit, Permit No. M-1991-136, Corrective Action - 2019 Annual Report Map**

Dear Mr. Burkey:

On February 12, 2019 the Division of Reclamation, Mining and Safety (Division) received your 2019 annual report, map and fee. Upon further review of materials submitted it was determined that the map submitted was inadequate because it does not meet the requirements of the Act and Rules.

1. The map submitted lacked the basic map requirements pursuant to Rule 6.2.1.
  - a. A critical issue, the map did not accurately depict the permit boundary (Rule 6.2.1(d)). The area depicted in the map is approximately 68 acres. The permit boundary is only 42.60 acres.
2. Pursuant to 34-32.5-116(3)(a) The map shall show the extent of the current disturbances to affected land, reclamation accomplished to date and during the preceding year, new disturbances that are anticipated to occur during the upcoming year, and reclamation that will be performed during the coming year.
  - a. The map submitted failed to identify any of the above mentioned items as required by the Act.

To correct this issue and comply the operator shall submit a new annual report map. At this time e-permitting users cannot revise their submissions. To resolve this issue please submit to the Division an updated/revised annual report map that meets the requirements listed above. To avoid potential future enforcement actions for non-compliance with State Statutes, Rules and Regulations, and/or conditions specified in your permit for this site you must submit compliance documentation by **Tuesday, March 19, 2019**.
