**Re: Project, Permit No. M-1980-244;
Technical Revision (TR-104) Approval**

Dear Mr. Schaffner:

On February 5, 2019 the Division of Reclamation, Mining and Safety received your response to our adequacy letter. The Division has reviewed your responses and approved the Technical Revision application submitted to the Division on August 27, 2018 addressing the following:

Mineralized Waste Processing

The terms of the Technical Revision No. 104 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division has reviewed the change associated with TR-104 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability. Therefore, the surplus warranty remains at \$299,230.00, last adjusted with the approval of TR 109 on February 5, 2019. Please note TRs 108 and 111 are currently under review by the Division, and may or may not have impacts on the financial warranty.
