**Re: Sprague Red Lyons, Permit No. M-1981-057, Approval of Administrative Revision,
Revision No. AD-01**

Ms. Sprague:

On February 22, 2019, the Division of Reclamation, Mining and Safety (Division) approved Administrative Revision No. AD-01 for the Sprague Red Lyons permit, addressing the following:

Correct permit acreage from 59.70 acres to 58.16 acres based on survey completed by Coffey Engineering & Surveying on 1/9/2019.

This is not an acreage reduction, but a correction to the acreage amount assigned to this permit based on more accurate (and modern) survey data collected for the property. The actual permit acreage on the ground does not change with this revision.

The terms of the Administrative Revision No. 1 approved by the Division are hereby incorporated into Permit No. M-1981-057. All other conditions and requirements of Permit No. M-1981-057 remain in full force and effect.
