Cc: Mike Ludlow <Mike.Ludlow@oxbow.com>

Leigh,

Please find attached, a pdf of the updated Identification of Interests for Oxbow Mining for section 2.04 of the permit. I am preparing Minor Revision 30 to the permit to address this change. Please review this for adequacy before it is submitted.

The threatened and endangered wildlife portion of the Terror Creek Permit was updated in 2016. I don't anticipate needing a new modification, however I will review.

I am aware of your discussions with Mr. Ludlow concerning bond calculations and what options may be available to Oxbow Mining.

For these reasons, please extend the completion date for Terror Creek Loadout RN-07 until May 1, 2019.

Please also find attached, a pdf of the areas that will be included in SL-1 for the Elk Creek Mine. I hope to have this package ready for your review by Friday, 2/22/19. As you know, Oxbow Mining has completed extensive demolition, backfill and grading activities in these areas of the Elk Creek Mine and will be seeking Phase 1 Release. Please extend the completion date for Elk Creek Mine RN-07 until May 1, 2019 to allow for your review.

Yours,

Doug Smith

Chief Engineer
