Mark,

The DRMS accepts your request for a two week extension for the corrective actions required with respect to the affected area (Area F) boundary markers are missing or incorrectly placed; and the tamarisk (salt cedar) trees present in Area A. Your new corrective action due date is 3/26/2019.

Please contact me if you have any questions.

Tim,

I'm working on the correction items per your inspection report. Finalizing the weed management plan as well as finalizing coordinates needed for boundary markers. Hoping to have completed next week, but looking like I may be a week or so past due date of 3/12. If this is a problem please let me know and I'll push a bit to complete. If an extra week or two extension is not a problem that will be much appreciated. Please let me know.

Thanks,

Mark Jesik

Mike,

A hard copy of the attached pdf file will be sent with today's mail to Matt Welte. Please note I've copied the State Land Board and the BLM.

Please contact me if you have any questions.
