

This letter is regarding the Emerald Vista Estate Site with the permit number #M1994-006. All slopes have been graded to 3H:1V or less. Over burden and topsoil have been replaced over the entire area. We did seeding in April of 2018. Trinidad and Las Animas County was in drought last year. We will have to see what vegetation comes out of our seeding. Pit was inspected in April of 2017 by ~~Bill~~ Cunningham and was found to be in good order.

Michael
