**Re: Connell Resources, Inc.; Lazy Two Pit; File No. M-2019-001;
Notice of Objection to Construction Materials Regular (112) Application**

Mr. Schenderlein,

The Division of Reclamation, Mining and Safety (Division/DRMS) received a timely objection to the Lazy Two Pit permit application, File No. M-2019-001, from the following individual:

- Phillip MacLean

The objection was received within the public comment period which began when the application was filed for review on January 18, 2019.

A copy of the written objection is enclosed for your records pursuant to Rule 1.7.1(3). The objection can also be viewed at: <http://drmsweblink.state.co.us/drmsweblink/search.aspx?dbid=0>

If you have any questions, you may contact me at peter.hays@state.co.us or (303) 866-3567 Ext. 8124.

Sincerely,

Peter S. Hays
Environmental Protection Specialist

To Whom It May Concern,

In response to the rules and regulations established by the Mined Land Reclamation Board the following is our response and comments regarding:

Parcel Number: 030311100006 - Application for the Lazy Two Pit by Connell Resources, Inc Per the Notice sent by Blue Earth Solutions, LLC, P.O. Box 2427, 80522 Fort Collins, Colorado, Bill Schenderlein Project Manager the application is to create rangeland at or near Section 11, Township 10 North, Range 67 West of the 6th Prime Meridian, Weld County, Colorado. The general location is approximately 2.5 miles South of the community of Carr, Colorado.

Comments and Concerns

#1: Well Permitting for the proposed Lazy Two Pit:

We are concerned after talking to several water professionals that it is possible a well of the size needed to support the proposed Lazy Two Pit could have an impact on our residential well.

#2: County Roads in the proposed Lazy Two Pit area will be incapable of supporting the truck traffic that will be associated with this project: We are concerned that County Road 21 and County Road 118 that are adjacent to the proposed Lazy Two Pit which are gravel roads and of which are presently minimally wide enough for the residential vehicle traffic in this area would become unsafe and unmanageable. The unsafe condition mentioned is in our opinion obvious however the unmanageable condition may not be as obvious so the following is our explanation. Maintenance of the county roads in this area have always been minimal and we do understand the difficulty that presents itself with the maintenance of the roads in the area. However, when you add the trucking of material from the proposed Lazy Two Pit to this equation the proper maintenance of the above-mentioned county roads would be improbable and when compounded with the minimal width of these roads would create a possible liability issue to all parties involved including the people traveling these roads daily.

#3: Property Values will be affected by the proposed Lazy two Pit: Our concern is that property values which are in close proximity to the proposed Lazy Two Pit location will be affected for as many years as the mine is active and quite possibly for years afterward.

#4: Public Health and Safety: There are many concerns with this issue concerning the proposed Lazy Two Pit including but not limited to: dust from the mining process, contamination of residential wells (mentioned above in item #1), dangerous conditions encountered by the public traveling on roadways including people walking, riding horses and in vehicles.

Thank you for considering the affects that would be daily concerns to us and the residents of the Carr, Colorado area as indicated in the description of the Lazy Two Pit.
