**Re: Cresson Project, Permit No. M-1980-244;
Technical Revision Approval, Revision No. TR-111**

Dear Mr. Schaffner:

On April 2, 2019 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on February 1, 2019, addressing the following:

Cement Substitution on Valley Leach Facilities

The terms of the Technical Revision No. 111 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division has reviewed the change associated with TR-111 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability. Therefore, the surplus warranty remains at \$299,230.00, last adjusted with the approval of TR 104 on February 20, 2019. Please note TRs 108 and 112 are currently under review by the Division, and may or may not have impacts on the financial warranty. If you have any questions or need further information, please contact me at (303)866-3567 x8169.

Sincerely,
