Rye, CO 81069

**Re: Midway Pit, Permit No. M-1988-018,  
Technical Revision (TR-3) Preliminary Adequacy Review**

Dear Mr. Baxter:

On March 26, 2019 the Division of Reclamation, Mining and Safety (DRMS) received a request for a Technical Revision (TR-03) addressing the following:

*Weed Management Plan.*

Please address the following:

- 1) TR-03 was prepared and submitted by Telesto Solutions Inc. The DRMS could not locate a letter authorizing Telesto Solutions to act on behalf of Midway Aggregates. As such, the DRMS requires a signed letter on Midway Aggregates letterhead authorizing Telesto Solutions to submit documents to the DRMS on behalf of Midway Aggregates.
- 2) It is unclear if the intent of the submitted Weed Management Plan is intended to be accepted by the DRMS for all eleven permit sites shown in Table 1 and on Figure 1. Regardless of the intent, the DRMS can only accept this submittal as it applies to the Midway Pit. No response is necessary.

**The decision date for TR-3 is April 26, 2019.** Please be advised that if you are unable to satisfactorily address any concerns identified in this review before the decision date, **it will be your responsibility to request an extension of the review period.** If there are outstanding issues that have not been adequately addressed prior to the end of the review period, and no extension has been requested, the Division may deny this Technical Revision (TR).

If you have any questions, please contact me.

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
