Re: M-1980-183, Pit 29
Inspection Response Letter

Dear Mr. Oliver,

The Colorado Division of Reclamation, Mining and Safety (Division) received your letter regarding the approved reclamation plan and the requirement for rip-rap placement on the slopes of the two pits. Upon review of the information you have submitted and a review of the permit file for this site, the Division concurs with your findings that the reclamation plan only calls for rip-rap for embankments above the original surface grade of the reservoirs.

Please feel free to contact me at Jared.Ebert@state.co.us or (303) 866-3567 ext. 8120 should you have any additional questions.

Sincerely,

Jared Ebert
Environmental Protection Specialist III
