RE: Black Mountain Sand DJ LLC M2018051

To Whom It May Concern:

On behalf of the Board of Supervisors for the West Greeley Conservation District in Greeley, Colorado, it is our wish to be recognized with our concerns with the proposed construction and operation of the aforementioned application.

We have been notified by various land owners and our neighboring Ft Morgan Conservation District of the proposed operation. West Greeley Conservation District has not received any formal notifications of the project.

It is our belief we should be a part of the USR review. We have concern for the surrounding land owners and agencies this project may impact and most importantly, from a conservation standpoint, the affects that could arise.

It is our belief we should be apprised of such planning before any work begins. While not all the mining is in our district the resultant traffic, dust issues, and water quality risks will affect our district.

Thank you for your attention to this concern.

For the Board,

Kandee Nourse
District Manager
