Dear Sir:

My Supervisor gave me pictures of the mine corrections and asked me to give them to you. I have included a pdf of the report stating the corrections needed as well as the pictures he took. He also states that the erosion and sedimentation problems will be handled better when the weather allows for more work to be done. If there are any questions or concerns please contact Sedgwick County Road & Bridge Office at 970-474-3576 or my Supervisor directly at 970-520-0262

Thank you,

Nori Kinoshita

Office Manager

Sedgwick County Road & Bridge
