Map Request - West Elk Mine; Permit No. C- 1980-007; Minor Revision No. MR -435:

Simmons - DNR, Leigh <leigh.simmons@state.co.us>
To: Daniel Timmons <dtimmons@wildearthguardians.org>

Mon, Jun 17, 2019 at 2:54 PM

Mr Timmons,

As you noted, MR-435 was received by the Division on June 14, however the application has not yet been found complete.

Following the submission of any Minor Revision there is a 10-day period during which the Division must find the application either complete or incomplete.

Following the determination of completeness there is a 10-day period during which the content of the material is reviewed for adequacy, and the Division must propose a decision.

Following the proposal of a decision there is a further 10-day period during which comments may be received, prior to the issuance of the decision.

(A couple of extra points to note: it is not unusual for the adequacy review period to be extended, and all submitted material is subject to change during that period)

When MR-435 is found complete I'll forward you a copy of all the material associated with the application.
(The completeness due date is June 24, 2019)
