***RE: Pitch Project, Permit # M-1977-004 , Technical Revision (TR-10) Adequacy Review***

Mr. Wykoff:

The Division of Reclamation, Mining and Safety (Division) is in the process of reviewing your request for technical revision (TR-10) to permit # M-1977-004 for the Pitch Project. The following issues of concern have been identified as needing further clarification.

1. TR-10 presents a plan to remove and replace a portion of the east slope in the South Pit area. Please describe where the removed material will be placed, and what the removed material will be replaced with.
2. TR-10 presents a plan to demolish the sand filtration plant presently located near the toe of the sediment pond. Please state where the demolished plant will be disposed of.

Please submit your response(s) to the above listed items by June 21, 2019.

If you require additional information, or have questions or concerns, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dustin Czapla", is located below the "Sincerely," text.
