**RE: Ackerman Pit; File No. M-2019-037; 110c Application;  
Incomplete Application Notice**

Dear Ms. Brossman,

On June 14, 2019, the Division of Reclamation, Mining and Safety (DRMS) received your 110c Construction Materials Reclamation Permit Application package for the Ackerman Pit, File No. M-2019-037. Review of this application determined the following items must be received before the DRMS can consider the application as being submitted/filed and the technical review can begin. Please respond to this Incompleteness Notice with the requested additional/updated information on permit replacement pages and summarize each response in a cover letter titled "Incompleteness Response; M-2019-037".

**APPLICATION FORM**

1. P. 5, Responsibilities as a Permittee. Item 10 was initialed indicating this permit is a joint venture requiring a power of attorney. Since this is a county operation this provision is most likely not required, therefore should not be initialed. If this is a joint venture, please confirm as much. If not, please resubmit page 5 of the application with the correction.

Your 110c Amendment Application will not be considered submitted/filed until the information listed above is received and found sufficient to begin our review. A decision date will be established 30 days from the date of receipt and acceptance of all of the requested information.

Pursuant to Rule 1.4.1(8), you have sixty (60) days from the date of this letter to submit all necessary documents that the DRMS needs for an application to be considered filed. If, at the end of the sixty day period, the application has not been determined to be filed with the DRMS, the DRMS may deny the application and terminate the application file. All corrected pages must also be provided to Cheyenne County Clerk & Recorder.

**The response to this Incompleteness Notice is due on or before August 26, 2019.**

This letter shall not be interpreted to mean that there are no other completeness issues or technical deficiencies in your application. The DRMS will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.
