Jared,

AFS has moved in and plan on doing the slopes and the area that is still zoned agricultural leaving the commercial zoning area to the far east out of the plan. They want to seed the whole agriculture area leaving it a pasture. If you go back in the 1st reclamation plan most of the area that was the farm yard was to be left graveled as it was for 100 years. That graveled area is grandfather in and should remain that way per Cap Land Co as land owners do request.

Please consider where this is going without the lack of cooperation on going for 12 years. We as land owners have been put on the back burner in the whole process. What are your thoughts on this latest decision telling the land owner we have no rights in determining the future of our land?

Thanks  
Gary Priola  
Cap Land Co.
