Response to Reclamation Permit Application Consideration

DATE: July 2, 2019
TO: Jared L. Ebert, Environmental Protection Specialist (jared.ebert@state.co.us)
CC: Keith Vander Horst, P.E., Chief of Water Supply - Inside Basins
Chris Grimes Ground Water Commission Staff
FROM: Ioana Comaniciu, P.E.
RE: Burrow Site for Bennett Crossing Filing 2 (Parcel 1), Permit No. M-2019-029
Operator: LGI Homes - Colorado, LLC
Contact: Kacy Flemons (720) 563-7701 and kacy.flemons@lgihomes
Sec. 27, Twp. 3S, Rng. 63W, 6th P.M., Adams County
North Kiowa Bijou Designated Ground Water Management District and Kiowa Bijou
Designated Ground Water Basin

CONDITIONS FOR APPROVAL

- ☒ The proposed operation does not anticipate exposing groundwater. Therefore, exposure of ground water must not occur during or after mining operations. The Applicant must ensure that mining will stay at least 2 feet above the ground water table throughout the proposed mining operations.
- ☒ The applicant has indicated plans to use water at the site, however the source of water for the site has not been identified. If water will be used for any purpose at this site, the applicant will need to document that the water was obtained from a legal source that allows such industrial use.

COMMENTS: If storm water runoff is intercepted by this operation and is not diverted or captured in priority, it must be released to the stream system within 72 hours. This may require a discharge permit from CDPHE-WQCD. Otherwise, the operator will need a Ground Water Commission approved replacement plan to replace evaporation losses.

The applicant may contact the State Engineer's Office with any questions.
