**Re: Ducray Pit #2, File No. M-2019-035, 110c Construction Limited Impact Permit
Application, Receipt of Comment/Objection**

Dear Mr. Sink,

On July 18, 2019, the Division of Reclamation, Mining and Safety (Division) received your comment regarding the Ducray Pit #2. Your comment was forwarded to the applicant on July 24, 2019. Any jurisdictional items not previously identified in the Division's incompleteness letter (June 19, 2019) will be addressed in Adequacy Review #1.

Please note that although your letter does not explicitly state that you object, all comments in opposition should be treated as such. The comment submitted on July 18, 2019 however does not meet the requirements of Rule 1.7.1(2)(c) as it lacks a phone number. Please provide the Division with the required information in order for the comment to be processed as an objection. Note that being an objector means that you are in opposition to the Applicant obtaining a permit and therefore being able to be complete reclamation as required by the Mined Land Reclamation Board.

If you wish for your objection to be treated as a general comment rather than an objection you must notify the Division in writing.

Please also be advised that all correspondence on this matter shall be made in writing through the Division's Denver office to be formally a part of the decision record.

If you require any additional information, or have questions or concerns, please feel free to contact me at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203, by phone 303-866-3567 Ext 8183 or via email at lucas.west@state.co.us.

Sincerely,

Amy Yeldell
Environmental Protection Specialist
