Hello Tony,

I have reviewed TR20 for the New Horizon Mine. I have identified two housekeeping items to resolve for this revision:

- 1) On revised page 2.03-15, ERMR states that the total area within the permit is 234.78 acres. The Division Permit system reports total permitted acreage=234.6. This value was the approved acreage upon approval of TR18 (11/19/2018). DRMS is unable to locate the additional 0.18 acres that ERMR states on revised page 2.03-15. The Division requests that ERMR correct this value to 234.6 acres.
- 2) On revision Section 2.05.3, page 1, 5th paragraph, first sentence, "Mining will within the approved mining area..." This sentence is incomplete. I think it is missing a word. Please correct. Since mining has ceased and the site is in reclamation, Should this discussion be in past-tense?

Please let me know if we need to discuss these items.

Thank you
