DIVISION OF MINING  
PERMITTING & SAFETY

SCANNED

Dear Mr. West:

Wasteline, Inc., on behalf of Arboles Sand and Stone, is requesting a two week extension to respond to the adequacy letter dated 12 July 2019. This extension is requested due to the unforeseen problems with our computer hardware and software. Although we are working with technicians from both HP and Windows to resolve the issues with a viral/hack attack and mandatory updates resulting in a catastrophic cascading impact on all our software programs and data stored. We anticipate it will take several days to recover all the necessary documentation to complete the map and related information needed to respond to the letter.

Our goal is to provide the information requested as soon as possible. In advance, thank you for your positive consideration of this extension request.

A copy of this signed letter will be provided via email as well as sending it hardcopy to the above address. If you have any questions, please contact the undersigned at WASTELINE, Inc. at 605-939-0650 email: [Wasteline.84532@gmail.com](mailto:Wasteline.84532@gmail.com).

Sincerely,

Nathan A. Barton, CE, PE, DEE, Environmental and Permitting Compliance Engineer
