Hello Tim:

Attached please find the information you requested earlier today. I am missing the following documents but will send them your way soon.

- P.E. evaluation letter and attachment for [3560 Drennan Road](#)
- P.E. evaluation attachment for [3825 Silica Drive](#)

Please do not hesitate to contact me should you need additional information or have any questions.

Best regards,

Hello Tim:

Today I will send you the information you requested in your email below so you can move forward with processing the conditional approval for SO-02.

Thanks,

Andre

On Mon, Jul 29, 2019 at 2:16 PM Cazier - DNR, Tim <[tim.cazier@state.co.us](mailto:tim.cazier@state.co.us)> wrote:

Joel, Bruce:

The DRMS has determined a conditional approval of the current permit transfer application (SO-02) is appropriate. However, we will need a demonstration that attempts have been made to obtain structures agreements with each of the structure owners within 200 feet of the affected area. Providing us with certified mail receipts is the usual route for this demonstration. If you used a method other than the US mail to solicit any or all the required structures agreements, call me and we can discuss what other documentation may be appropriate.

Please send us what you have today, so we can move forward with SO-02.

In the mean time, I hope to have the bond estimate updated today or tomorrow.

**RE: Compensation Agreement between Aggregate Industries-WCR, Inc. dba  
Transit Mix Concrete Co. and Scott T. Meagher**

Dear Mr. Meagher:

On February 1, 2019, LafargeHolcim acquired the Daniels Sand Pit 2 (Permit M-1973-007-SG). Transit Mix Concrete Co. will continue to operate under the name Transit Mix Concrete Co. for Aggregate Industries (US) Inc., a member of LafargeHolcim.

As the new operator, the Division of Reclamation, Mining and Safety (DRMS) requires Aggregate Industries to fulfill several regulatory requirements as the new mine operator. One of our regulatory requirements is to secure a compensation agreement from owners of all structures that are 200 feet or less from the mining operation's affected land, i.e., those lands where actual mining operations are or will occur under the present terms of our approved mining permit.

We have identified the list of structures (listed in the compensation agreement) as being 200 feet or less from the mining operation's affected land.

The intent of the compensation agreement is to protect you and your structures that are 200 feet or less from the mining operation's affected land. However, we do not anticipate or expect any of your structures to be affected by our on-gong mining operations.

We request your assistance in our meeting the requirements of this DRMS regulation. Enclosed with this letter is a partially completed compensation agreement which we have signed and notarized. We request you complete the agreement with your notarized signature, and return a copy to us in the enclosed envelope. Be sure and retain a copy for your files. We will make a copy of the completed agreement upon receipt of your notarized copy and provide a copy to the DRMS for their files.

If you have any questions, please feel free to contact Andre Laroche, Permit Specialist at [andre.laroche@transitmix.com](mailto:andre.laroche@transitmix.com) / 719-491-0288.

Best regards,

A handwritten signature in black ink, appearing to read 'Joel Bolduc'.

Joel Bolduc

Regional Land and Environment Manager

**Structure Agreement**

This letter has been provided to you as the owner of a structure on or within two hundred (200) feet of a proposed mine site. The State of Colorado, Division of Reclamation, Mining and Safety ("Division") requires that where a mining operation will adversely affect the stability of any significant, valuable and permanent man-made structure located within two hundred (200) feet of the affected land, the Applicant shall either:

- a) Provide a notarized agreement between the Applicant and the Person(s) having an interest in the structure, that the Applicant is to provide compensation for any damage to the structure; or
- b) Where such an agreement cannot be reached, the Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that mining and reclamation activities, as proposed, will have "no negative effect" on their utility. (*Construction Materials Rule 6.3.12 and Rule 6.4.19 and Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with the Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. §34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a) and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary part to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area.**

**Structure(s) Name and/or Description:**

1. Chain link/barbed wire fence located at 3825 Silica Drive, Colorado Springs, CO 80910 (along E side of property)

**CERTIFICATION**

The Applicant, by John Conlin, as Regional General Manager of Aggregate Industries-WCR, Inc., does hereby certify that Scott T. Meagher (structure owner) shall be compensated for any damage from the proposed mining operation to the above listed structure(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the reclamation Permit Application for the Daniels Sand Pit 2, File Number M-1973-007-SG.

***This form has been approved by the Colorado Mined Land Reclamation Board pursuant to its authority under the Colorado Land Reclamation Act for the Extraction of Construction Materials and the Colorado Mined Land Reclamation Act for Hard Rock, Metal, and Designated Mining Operations. Any alteration or modification to this form shall result in voiding this form.***

Attention: Joel Bolduc  
Regional Land and Environment Manager

Subject: Engineering Evaluation for Parcel 6503101009 (Scott T Meagher)  
Daniels Sand Pit 2 (Permit M-1973-007-SG)

Mr. Bolduc,

Brierley Associates has been retained by Transit Mix Concrete Co. to provide an engineering assessment regarding structures within 200 feet of the mining operations affected land. This letter addresses the chain link/barbed wire fence located at 3825 Silica Drive, Colorado Springs, CO 80910 (along the east side of the property).

The subsurface conditions in the area consists mainly of loose to dense eolian deposits of sand and silt. The mine in this vicinity has been backfilled such that no mine slope exists. The attached Google Earth plan and profile presents the proximity to the mine workings.

In my professional opinion in terms of slope stability impacts, provided the excavation remains in the permitted area, the structures listed above will not be affected by the on-going mining operations.

Please contact us if we can be of further assistance, or if you have any questions regarding this evaluation.

Sincerely,

Steven C Kuehr, PE

- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that mining and reclamation activities, as proposed, will have "no negative effect" on their utility. (*Construction Materials Rule 6.3.12 and Rule 6.4.19 and Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with the Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. §34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a) and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary part to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area.**

#### **Structure(s) Name and/or Description:**

1. Buildings located at 3737 Drennan Road, 3735 Drennan Road, 3733 Drennan Road, 3731 Drennan Road, 3729 Drennan Road, 3725 Drennan Road, and 3721 Drennan Road, Colorado Springs, CO 80910
2. Concrete and asphalt pavement located on S side of properties listed above
3. Asphalt pavement and sign located at 3737 Drennan Road (on E side of building)
4. T-post fence (4-wire/barbed wire) located on S side of properties listed above

### **CERTIFICATION**

The Applicant, by John Conlin, as Regional General Manager of Aggregate Industries-WCR, Inc., does hereby certify that CS 5 Venture LLC, (structure owner) shall be compensated for any damage from the proposed mining operation to the above listed structure(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the reclamation Permit Application for the Daniels Sand Pit 2, File Number M-1973-007-SG.

***This form has been approved by the Colorado Mined Land Reclamation Board pursuant to its authority under the Colorado Land Reclamation Act for the Extraction of Construction Materials and the Colorado Mined Land Reclamation Act for Hard Rock, Metal, and Designated Mining Operations. Any alteration or modification to this form shall result in voiding this form.***

Attention: Joel Bolduc

Subject: Engineering Evaluation for Parcel 6503103001 (CS 5 Venture LLC)  
Daniels Sand Pit 2 (Permit M-1973-007-SG)

Mr. Bolduc,

Brierley Associates has been retained by Transit Mix Concrete Co. to provide an engineering assessment regarding structures within 200 feet of the mining operations affected land. This letter addresses the following:

- Buildings located at 3737 Drennan Road, 3735 Drennan Road, 3733 Drennan Road, 3731 Drennan Road, 3729 Drennan Road, 3725 Drennan Road, and 3721 Drennan Road, Colorado Springs, CO 80910.
- Concrete and Asphalt pavement located on south side of properties listed above.
- Asphalt pavement and sign located at 3737 Drennan Road on east side of building.
- T-post fence (4-wire/barbed wire) located on S side of properties listed above.

The subsurface conditions in the area consists mainly of loose to dense eolian deposits of sand and silt. The mining slope, 78.7 feet from the property line, is at a 3H to 1V slope and the floor of the mine is above groundwater. The attached Google Earth plan and profile presents the proximity to the mine workings.

In my professional opinion in terms of slope stability impacts, provided the excavation remains in the permitted area, the structures listed above will not be affected by the on-going mining operations.

Please contact us if we can be of further assistance, or if you have any questions regarding this evaluation.

Sincerely,

Steven C Kuehr, PE

**RE: Compensation Agreement between Aggregate Industries-WCR, Inc. dba  
Transit Mix Concrete Co. and Al's Clearview Property, LLC**

Dear Sir or Madam:

On February 1, 2019, LafargeHolcim acquired the Daniels Sand Pit 2 (Permit M-1973-007-SG). Transit Mix Concrete Co. will continue to operate under the name Transit Mix Concrete Co. for Aggregate Industries (US) Inc., a member of LafargeHolcim.

As the new operator, the Division of Reclamation, Mining and Safety (DRMS) requires Aggregate Industries to fulfill several regulatory requirements as the new mine operator. One of our regulatory requirements is to secure a compensation agreement from owners of all structures that are 200 feet or less from the mining operation's affected land, i.e., those lands where actual mining operations are or will occur under the present terms of our approved mining permit.

We have identified the list of structures (listed in the compensation agreement) as being 200 feet or less from the mining operation's affected land.

The intent of the compensation agreement is to protect you and your structures that are 200 feet or less from the mining operation's affected land. However, we do not anticipate or expect any of your structures to be affected by our on-going mining operations.

We request your assistance in our meeting the requirements of this DRMS regulation. Enclosed with this letter is a partially completed compensation agreement which we have signed and notarized. We request you complete the agreement with your notarized signature, and return a copy to us in the enclosed envelope. Be sure and retain a copy for your files. We will make a copy of the completed agreement upon receipt of your notarized copy and provide a copy to the DRMS for their files.

If you have any questions, please feel free to contact Andre Laroche, Permit Specialist at [andre.laroche@transitmix.com](mailto:andre.laroche@transitmix.com) / 719-491-0288.

Best regards,

A handwritten signature in black ink that reads 'Joel Bolduc'.

Joel Bolduc

Regional Land and Environment Manager

**Structure Agreement**

This letter has been provided to you as the owner of a structure on or within two hundred (200) feet of a proposed mine site. The State of Colorado, Division of Reclamation, Mining and Safety ("Division") requires that where a mining operation will adversely affect the stability of any significant, valuable and permanent man-made structure located within two hundred (200) feet of the affected land, the Applicant shall either:

- a) Provide a notarized agreement between the Applicant and the Person(s) having an interest in the structure, that the Applicant is to provide compensation for any damage to the structure; or
- b) Where such an agreement cannot be reached, the Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that mining and reclamation activities, as proposed, will have "no negative effect" on their utility. (*Construction Materials Rule 6.3.12 and Rule 6.4.19 and Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with the Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. §34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a) and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary part to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area.**

**Structure(s) Name and/or Description:**

1. Chain link barb wire fence and gate located at 3655 Drennan RD, Colorado Springs, CO 80910 (fence around perimeter of truck parking yard)
2. T-Post 2-Wire fence located on Drennan RD Parcel #6503100020 (on S and W side of property)

**CERTIFICATION**

The Applicant, by John Conlin, as Regional General Manager of Aggregate Industries-WCR, Inc., does hereby certify that Al's Clearview Property, LLC (structure owner) shall be compensated for any damage from the proposed mining operation to the above listed structure(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the reclamation Permit Application for the Daniels Sand Pit 2, File Number M-1973-007-SG.

***This form has been approved by the Colorado Mined Land Reclamation Board pursuant to its authority under the Colorado Land Reclamation Act for the Extraction of Construction Materials and the Colorado Mined Land Reclamation Act for Hard Rock, Metal, and Designated Mining Operations. **RE: Compensation Agreement between Aggregate Industries-WCR, Inc. dba  
Transit Mix Concrete Co. and Jimmy V. Payton and Jimmie A. Payton**

Dear Mr. and Ms. Payton:

On February 1, 2019, LafargeHolcim acquired the Daniels Sand Pit 2 (Permit M-1973-007-SG). Transit Mix Concrete Co. will continue to operate under the name Transit Mix Concrete Co. for Aggregate Industries (US) Inc., a member of LafargeHolcim.

As the new operator, the Division of Reclamation, Mining and Safety (DRMS) requires Aggregate Industries to fulfill several regulatory requirements as the new mine operator. One of our regulatory requirements is to secure a compensation agreement from owners of all structures that are 200 feet or less from the mining operation's affected land, i.e., those lands where actual mining operations are or will occur under the present terms of our approved mining permit.

We have identified the list of structures (listed in the compensation agreement) as being 200 feet or less from the mining operation's affected land.

The intent of the compensation agreement is to protect you and your structures that are 200 feet or less from the mining operation's affected land. However, we do not anticipate or expect any of your structures to be affected by our on-going mining operations.

We request your assistance in our meeting the requirements of this DRMS regulation. Enclosed with this letter is a partially completed compensation agreement which we have signed and notarized. We request you complete the agreement with your notarized signature, and return a copy to us in the enclosed envelope. Be sure and retain a copy for your files. We will make a copy of the completed agreement upon receipt of your notarized copy and provide a copy to the DRMS for their files.

If you have any questions, please feel free to contact Andre Laroche, Permit Specialist at [andre.laroche@transitmix.com](mailto:andre.laroche@transitmix.com) / 719-491-0288.

Best regards,

A handwritten signature in black ink that reads 'Joel Bolduc'.

Joel Bolduc  
Regional Land and Environment Manager

**Structure Agreement**

This letter has been provided to you as the owner of a structure on or within two hundred (200) feet of a proposed mine site. The State of Colorado, Division of Reclamation, Mining and Safety ("Division") requires that where a mining operation will adversely affect the stability of any significant, valuable and permanent man-made structure located within two hundred (200) feet of the affected land, the Applicant shall either:

- a) Provide a notarized agreement between the Applicant and the Person(s) having an interest in the structure, that the Applicant is to provide compensation for any damage to the structure; or
- b) Where such an agreement cannot be reached, the Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that mining and reclamation activities, as proposed, will have "no negative effect" on their utility. (*Construction Materials Rule 6.3.12 and Rule 6.4.19 and Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with the Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. §34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a) and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary part to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area.**

**Structure(s) Name and/or Description:**

1. Chain link fence (wood framed) located at 4015 Bradley Road, Colorado Springs, CO 80911 (on N side of property along Bradley Road and W side of property along Cassidy Street)
2. Gravel road to house located off 4015 Bradley Road, Colorado Springs, CO 80911

**CERTIFICATION**

The Applicant, by John Conlin, as Regional General Manager of Aggregate Industries-WCR, Inc., does hereby certify that Jimmy V. Payton and Jimmie A. Payton (structure owner) shall be compensated for any damage from the proposed mining operation to the above listed structure(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the reclamation Permit Application for the Daniels Sand Pit 2, File Number M-1973-007-SG.

***This form has been approved by the Colorado Mined Land Reclamation Board pursuant to its authority under the Colorado Land Reclamation Act for the Extraction of Construction Materials and the Colorado Mined Land Reclamation Act for Hard Rock, Metal, and Designated Mining Operations. Any alteration or modification to this form shall result in voiding this form.***

Attention: Joel Bolduc  
Regional Land and Environment Manager

Subject: Engineering Evaluation for Parcel 6502300003 (Jimmy Payton & Jimmie Payton)  
Daniels Sand Pit 2 (Permit M-1973-007-SG)

Mr. Bolduc,

Brierley Associates has been retained by Transit Mix Concrete Co. to provide an engineering assessment regarding structures within 200 feet of the mining operations affected land. This letter addresses the chain link fence (wood frame) located at 4015 Bradley Road, Colorado Springs, CO 80911 (on north side of property along Bradley Road and west side of property along Cassidy Street) and gravel road to house located off of 4015 Bradley Road, Colorado Springs, CO 80911.

The subsurface conditions in the area consists mainly of loose to dense eolian deposits of sand and silt. The mining slope, 314.3 feet from the property line, is at a 1.6H to 1V slope and groundwater is below the floor of the mine. The attached Google Earth plan and profile presents the proximity to the mine workings.

In my professional opinion in terms of slope stability impacts, provided the excavation remains in the permitted area, the structures listed above will not be affected by the on-going mining operations.

Please contact us if we can be of further assistance, or if you have any questions regarding this evaluation.

Sincerely,

Steven C Kuehr, PE

Attention: Joel Bolduc  
Regional Land and Environment Manager

Subject: Engineering Evaluation for Parcel 6503100008 (USGS Colorado Water Science  
Center)  
Daniels Sand Pit 2 (Permit M-1973-007-SG)

Mr. Bolduc,

Brierley Associates has been retained by Transit Mix Concrete Co. to provide an engineering assessment regarding structures within 200 feet of the mining operations affected land. This letter addresses the USGS monitoring well, concrete pad, and associated equipment located in Colorado Springs, CO (south of Drennan Road, on south side of Fountain Mutual Ditch).

The subsurface conditions in the area consists mainly of loose to dense eolian deposits of sand and silt. The mining slope is at a 4H to 1V slope and groundwater is below the floor of the mine. The attached Google Earth plan and profile presents the proximity to the mine workings.

In my professional opinion in terms of slope stability impacts, provided the excavation remains in the permitted area, the structures listed above will not be affected by the on-going mining operations.

Please contact us if we can be of further assistance, or if you have any questions regarding this evaluation.

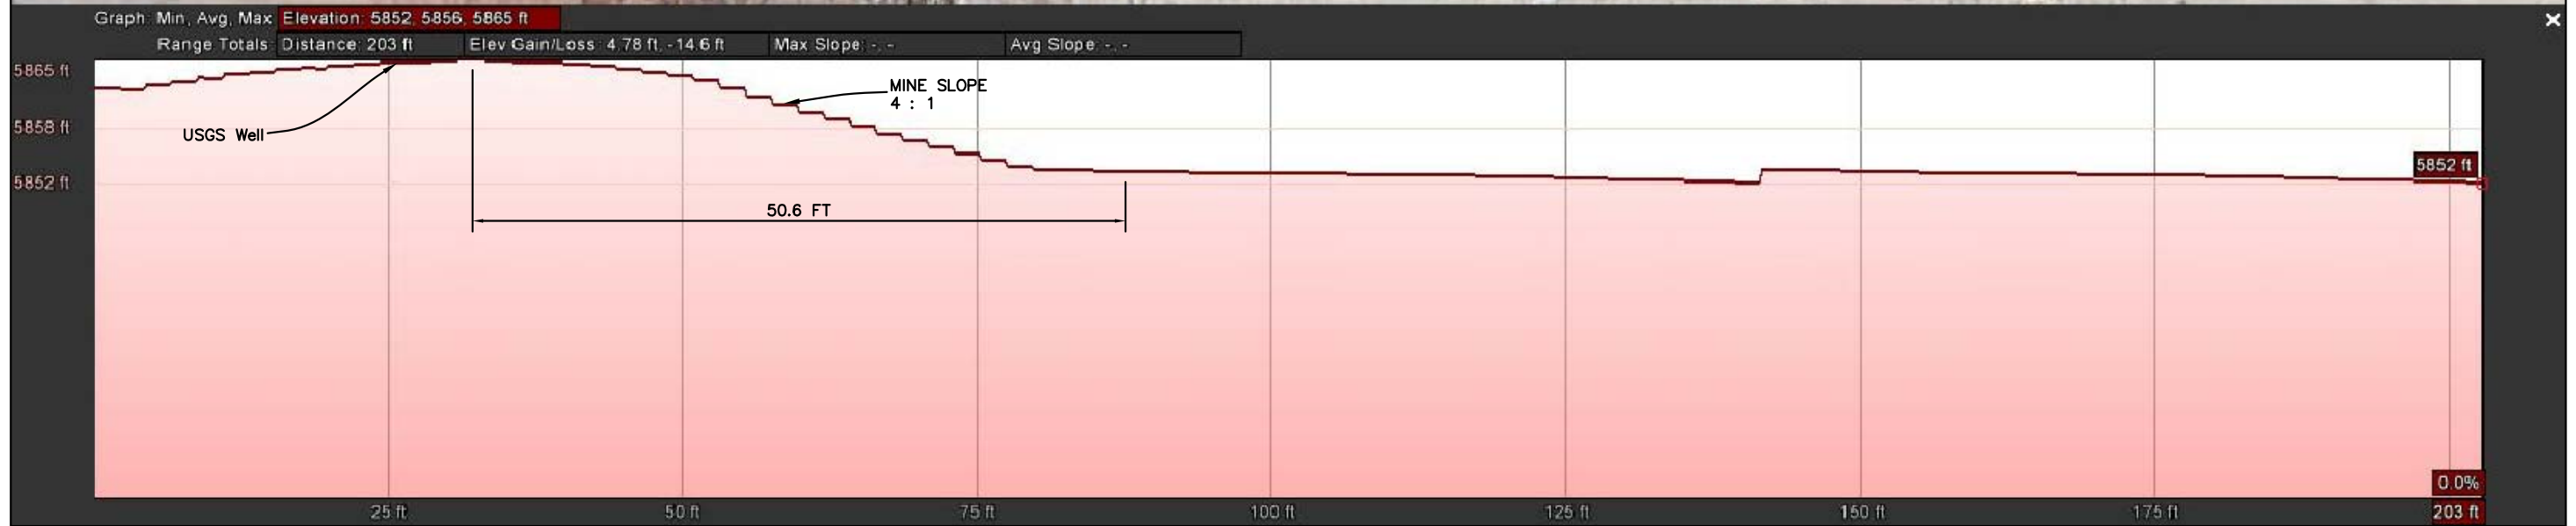

Sincerely,

Steven C Kuehr, PE

- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that mining and reclamation activities, as proposed, will have "no negative effect" on their utility. (*Construction Materials Rule 6.3.12 and Rule 6.4.19 and Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with the Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. §34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a) and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary part to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area.**

**Structure(s) Name and/or Description:**

1. Chain link fence located at 2620 Cody Drive, Colorado Springs, CO 80911 (N side property along Bradley Road)
2. Concrete slab located at 2620 Code Drive, Colorado Springs, CO 80911 (N side of property along Bradley Road)

**CERTIFICATION**

The Applicant, by John Conlin, as Regional General Manager of Aggregate Industries-WCR, Inc., does hereby certify that James M. Wills IV and Joan C. Wills (structure owner) shall be compensated for any damage from the proposed mining operation to the above listed structures(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the reclamation Permit Application for the Daniels Sand Pit 2, File Number M-1973-007-SG.

***This form has been approved by the Colorado Mined Land Reclamation Board pursuant to its authority under the Colorado Land Reclamation Act for the Extraction of Construction Materials and the Colorado Mined Land Reclamation Act for Hard Rock, Metal, and Designated Mining Operations. Any alteration or modification to this form shall result in voiding this form.***

Attention: Joel Bolduc  
Regional Land and Environment Manager

Subject: Engineering Evaluation for Parcel 6503401031 (James M Willis IV & Joan C)  
Daniels Sand Pit 2 (Permit M-1973-007-SG)

Mr. Bolduc,

Brierley Associates has been retained by Transit Mix Concrete Co. to provide an engineering assessment regarding structures within 200 feet of the mining operations affected land. This letter addresses the chain link fence and concrete slab located at 2620 Cody Drive, Colorado Springs, CO 80911 (north side of property along Bradley Road).

The subsurface conditions in the area consists mainly of loose to dense eolian deposits of sand and silt. The portion of the mine adjacent to this property has been backfilled and there are no slopes of concern. The attached Google Earth plan and profile presents the proximity to the mine workings.

In my professional opinion in terms of slope stability impacts, provided the excavation remains in the permitted area, the structures listed above will not be affected by the on-going mining operations.

Please contact us if we can be of further assistance, or if you have any questions regarding this evaluation.

Sincerely,

Steven C Kuehr, PE

**RE: Compensation Agreement between Aggregate Industries-WCR, Inc. dba  
Transit Mix Concrete Co. and Widefield School District No. 3, Pinello Elementary**

Dear Mr. Neal:

On February 1, 2019, LafargeHolcim acquired the Daniels Sand Pit 2 (Permit M-1973-007-SG). Transit Mix Concrete Co. will continue to operate under the name Transit Mix Concrete Co. for Aggregate Industries (US) Inc., a member of LafargeHolcim.

As the new operator, the Division of Reclamation, Mining and Safety (DRMS) requires Aggregate Industries to fulfill several regulatory requirements as the new mine operator. One of our regulatory requirements is to secure a compensation agreement from owners of all structures that are 200 feet or less from the mining operation's affected land, i.e., those lands where actual mining operations are or will occur under the present terms of our approved mining permit.

We have identified the list of structures (listed in the compensation agreement) as being 200 feet or less from the mining operation's affected land.

The intent of the compensation agreement is to protect you and your structures that are 200 feet or less from the mining operation's affected land. However, we do not anticipate or expect any of your structures to be affected by our on-going mining operations.

We request your assistance in our meeting the requirements of this DRMS regulation. Enclosed with this letter is a partially completed compensation agreement, which we have signed and notarized. We request you complete the agreement with your notarized signature, and return a copy to us in the enclosed envelope. Be sure and retain a copy for your files. We will make a copy of the completed agreement upon receipt of your notarized copy and provide a copy to the DRMS for their files.

If you have any questions, please feel free to contact Andre Laroche, Permit Specialist at [andre.laroche@transitmix.com](mailto:andre.laroche@transitmix.com) / 719-491-0288.

Best regards,

A handwritten signature in black ink, appearing to read "Joel Bolduc".

Joel Bolduc

Regional Land and Environment Manager

### **Structure Agreement**

This letter has been provided to you as the owner of a structure on or within two hundred (200) feet of a proposed mine site. The State of Colorado, Division of Reclamation, Mining and Safety ("Division") requires that where a mining operation will adversely affect the stability of any significant, valuable and permanent man-made structure located within two hundred (200) feet of the affected land, the Applicant shall either:

- a) Provide a notarized agreement between the Applicant and the Person(s) having an interest in the structure, that the Applicant is to provide compensation for any damage to the structure; or
- b) Where such an agreement cannot be reached, the Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that mining and reclamation activities, as proposed, will have "no negative effect" on their utility. (*Construction Materials Rule 6.3.12 and Rule 6.4.19 and Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with the Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. §34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a) and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary part to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area.**

#### **Structure(s) Name and/or Description:**

1. Split rail fence (2-rail) located at 2515 Cody Drive, Colorado Springs, CO 80911 (located on the N side of property along Bradley Road and on W side of property along Cody Drive)
2. School sign located at 2515 Cody Drive, Colorado Springs, CO 80911 (at the corner of Bradley Road and Cody Drive)

### **CERTIFICATION**

The Applicant, by John Conlin, as Regional General Manager of Aggregate Industries-WCR, Inc., does hereby certify that Widefield School District No. 3, Pinello Elementary (structure owner) shall be compensated for any damage from the proposed mining operation to the above listed structure(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the reclamation Permit Application for the Daniels Sand Pit 2, File Number M-1973-007-SG.

***This form has been approved by the Colorado Mined Land Reclamation Board pursuant to its authority under the Colorado Land Reclamation Act for the Extraction of Construction Materials and the Colorado Mined Land Reclamation Act for Hard Rock, Metal, and Designated Mining Operations. Any alteration or modification to this form shall result in voiding this form.***

**RE: Compensation Agreement between Aggregate Industries-WCR, Inc. dba  
Transit Mix Concrete Co. and Harrison School District No 2**

Dear Mr. Clemens:

On February 1, 2019, LafargeHolcim acquired the Daniels Sand Pit 2 (Permit M-1973-007-SG). Transit Mix Concrete Co. will continue to operate under the name Transit Mix Concrete Co. for Aggregate Industries (US) Inc., a member of LafargeHolcim.

As the new operator, the Division of Reclamation, Mining and Safety (DRMS) requires Aggregate Industries to fulfill several regulatory requirements as the new mine operator. One of our regulatory requirements is to secure a compensation agreement from owners of all structures that are 200 feet or less from the mining operation's affected land, i.e., those lands where actual mining operations are or will occur under the present terms of our approved mining permit.

We have identified the list of structures (listed in the compensation agreement) as being 200 feet or less from the mining operation's affected land.

The intent of the compensation agreement is to protect you and your structures that are 200 feet or less from the mining operation's affected land. However, we do not anticipate or expect any of your structures to be affected by our on-going mining operations.

We request your assistance in our meeting the requirements of this DRMS regulation. Enclosed with this letter is a partially completed compensation agreement which we have signed and notarized. We request you complete the agreement with your notarized signature, and return a copy to us in the enclosed envelope. Be sure and retain a copy for your files. We will make a copy of the completed agreement upon receipt of your notarized copy and provide a copy to the DRMS for their files.

If you have any questions, please feel free to contact Andre Laroche, Permit Specialist at [andre.laroche@transitmix.com](mailto:andre.laroche@transitmix.com) / 719-491-0288.

Best regards,

A handwritten signature in black ink that reads 'Joel Bolduc'.

**RE: Compensation Agreement between Aggregate Industries-WCR, Inc. dba  
Transit Mix Concrete Co. and First United Pentecostal Church, of Security**

Dear Rev. Garner:

On February 1, 2019, LafargeHolcim acquired the Daniels Sand Pit 2 (Permit M-1973-007-SG). Transit Mix Concrete Co. will continue to operate under the name Transit Mix Concrete Co. for Aggregate Industries (US) Inc., a member of LafargeHolcim.

As the new operator, the Division of Reclamation, Mining and Safety (DRMS) requires Aggregate Industries to fulfill several regulatory requirements as the new mine operator. One of our regulatory requirements is to secure a compensation agreement from owners of all structures that are 200 feet or less from the mining operation's affected land, i.e., those lands where actual mining operations are or will occur under the present terms of our approved mining permit.

We have identified the list of structures (listed in the compensation agreement) as being 200 feet or less from the mining operation's affected land.

The intent of the compensation agreement is to protect you and your structures that are 200 feet or less from the mining operation's affected land. However, we do not anticipate or expect any of your structures to be affected by our on-going mining operations.

We request your assistance in our meeting the requirements of this DRMS regulation. Enclosed with this letter is a partially completed compensation agreement which we have signed and notarized. We request you complete the agreement with your notarized signature, and return a copy to us in the enclosed envelope. Be sure and retain a copy for your files. We will make a copy of the completed agreement upon receipt of your notarized copy and provide a copy to the DRMS for their files.

If you have any questions, please feel free to contact Andre Laroche, Permit Specialist at [andre.laroche@transitmix.com](mailto:andre.laroche@transitmix.com) / 719-491-0288.

Best regards,

Joel Bolduc  
Regional Land and Environment Manager

This letter has been provided to you as the owner of a structure on or within two hundred (200) feet of a proposed mine site. The State of Colorado, Division of Reclamation, Mining and Safety ("Division") requires that where a mining operation will adversely affect the stability of any significant, valuable and permanent man-made structure located within two hundred (200) feet of the affected land, the Applicant shall either:

- a) Provide a notarized agreement between the Applicant and the Person(s) having an interest in the structure, that the Applicant is to provide compensation for any damage to the structure; or
- b) Where such an agreement cannot be reached, the Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that mining and reclamation activities, as proposed, will have "no negative effect" on their utility. (*Construction Materials Rule 6.3.12 and Rule 6.4.19 and Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with the Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. §34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a) and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary part to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area.**

**Structure(s) Name and/or Description:**

1. Church located at 3905 Bradley Road, Colorado Springs, CO 80911
2. Asphalt driveway located at 3905 Bradley Road, Colorado Springs, CO 80911 (on NW side of Church)
3. Ranch house on E side of Church located at 3905 Bradley Road, Colorado Springs, CO 80911
4. Concrete driveways (on W side and E side of ranch house located at 3905 Bradley Road, Colorado Springs, CO 80911)
5. Chain link fence (on N side of Church located at 3905 Bradley Road, Colorado Springs, CO 80911)
6. Church sign (on NE side of Church located at 3905 Bradley Road, Colorado Springs, CO 80911)

**CERTIFICATION**

The Applicant, by John Conlin, as Regional General Manager of Aggregate Industries-WCR, Inc., does hereby certify that First United Pentecostal Church, of Security (structure owner) shall be compensated for any damage from the proposed mining operation to the above listed structure(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the reclamation Permit Application for the Daniels Sand Pit 2, File Number M-1973-007-SG.

***This form has been approved by the Colorado Mined Land Reclamation Board pursuant to its authority under the Colorado Land Reclamation Act for the Extraction of Construction Materials and the Colorado Mined Land Reclamation Act for Hard Rock, Metal, and Designated Mining Operations. Any alteration or modification to this form shall result in voiding this form.***

**RE: Compensation Agreement between Aggregate Industries-WCR, Inc. dba  
Transit Mix Concrete Co. and Joyce L. Tanner**

Dear Ms. Tanner:

On February 1, 2019, LafargeHolcim acquired the Daniels Sand Pit 2 (Permit M-1973-007-SG). Transit Mix Concrete Co. will continue to operate under the name Transit Mix Concrete Co. for Aggregate Industries (US) Inc., a member of LafargeHolcim.

As the new operator, the Division of Reclamation, Mining and Safety (DRMS) requires Aggregate Industries to fulfill several regulatory requirements as the new mine operator. One of our regulatory requirements is to secure a compensation agreement from owners of all structures that are 200 feet or less from the mining operation's affected land, i.e., those lands where actual mining operations are or will occur under the present terms of our approved mining permit.

We have identified the list of structures (listed in the compensation agreement) as being 200 feet or less from the mining operation's affected land.

The intent of the compensation agreement is to protect you and your structures that are 200 feet or less from the mining operation's affected land. However, we do not anticipate or expect any of your structures to be affected by our on-going mining operations.

We request your assistance in our meeting the requirements of this DRMS regulation. Enclosed with this letter is a partially completed compensation agreement which we have signed and notarized. We request you complete the agreement with your notarized signature, and return a copy to us in the enclosed envelope. Be sure and retain a copy for your files. We will make a copy of the completed agreement upon receipt of your notarized copy and provide a copy to the DRMS for their files.

If you have any questions, please feel free to contact Andre Laroche, Permit Specialist at [andre.laroche@transitmix.com](mailto:andre.laroche@transitmix.com) / 719-491-0288.

Best regards,

A handwritten signature in black ink, appearing to read "Joel Bolduc".

Joel Bolduc  
Regional Land and Environment Manager

### **Structure Agreement**

This letter has been provided to you as the owner of a structure on or within two hundred (200) feet of a proposed mine site. The State of Colorado, Division of Reclamation, Mining and Safety ("Division") requires that where a mining operation will adversely affect the stability of any significant, valuable and permanent man-made structure located within two hundred (200) feet of the affected land, the Applicant shall either:

- a) Provide a notarized agreement between the Applicant and the Person(s) having an interest in the structure, that the Applicant is to provide compensation for any damage to the structure; or
- b) Where such an agreement cannot be reached, the Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that mining and reclamation activities, as proposed, will have "no negative effect" on their utility. (*Construction Materials Rule 6.3.12 and Rule 6.4.19 and Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with the Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. §34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a) and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary part to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area.**

#### **Structure(s) Name and/or Description:**

- 1. Sign located on Parcel #6503101006 (located on S side of Drennan Road in Colorado Springs, CO)
- 2. All future structures constructed on Parcel #6503101006

### **CERTIFICATION**

The Applicant, by John Conlin, as Regional General Manager of Aggregate Industries-WCR, Inc., does hereby certify that Joyce L. Tanner (structure owner) shall be compensated for any damage from the proposed mining operation to the above listed structure(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the reclamation Permit Application for the Daniels Sand Pit 2, File Number M-1973-007-SG.

***This form has been approved by the Colorado Mined Land Reclamation Board pursuant to its authority under the Colorado Land Reclamation Act for the Extraction of Construction Materials and the Colorado Mined Land Reclamation Act for Hard Rock, Metal, and Designated Mining Operations. Any alteration or modification to this form shall result in voiding this form.***

**Structure Agreement**

This letter has been provided to you as the owner of a structure on or within two hundred (200) feet of a proposed mine site. The State of Colorado, Division of Reclamation, Mining and Safety ("Division") requires that where a mining operation will adversely affect the stability of any significant, valuable and permanent man-made structure located within two hundred (200) feet of the affected land, the Applicant shall either:

- a) Provide a notarized agreement between the Applicant and the Person(s) having an interest in the structure, that the Applicant is to provide compensation for any damage to the structure; or
- b) Where such an agreement cannot be reached, the Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that mining and reclamation activities, as proposed, will have "no negative effect" on their utility. (*Construction Materials Rule 6.3.12 and Rule 6.4.19 and Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with the Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. §34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a) and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary part to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area.**

**Structure(s) Name and/or Description:**

1. Irrigation ditch (lined and unlined) and related structures on the W and E side of S Academy Blvd., Colorado Springs, CO

**CERTIFICATION**

The Applicant, by John Conlin, as Regional General Manager of Aggregate Industries-WCR, Inc., does hereby certify that Fountain Mutual Irrigation Company (structure owner) shall be compensated for any damage from the proposed mining operation to the above listed structure(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the reclamation Permit Application for the Daniels Sand Pit 2, File Number M-1973-007-SG.

***This form has been approved by the Colorado Mined Land Reclamation Board pursuant to its authority under the Colorado Land Reclamation Act for the Extraction of Construction Materials and the Colorado Mined Land Reclamation Act for Hard Rock, Metal, and Designated Mining Operations. Any alteration or modification to this form shall result in voiding this form.***
