Re: Incompleteness Notice, Acreage Reduction Request (AR-07) Pueblo West Pit, Permit No. M-1977-573

Mr. Schnabel:

On August 19, 2019, the Division of Reclamation, Mining and Safety (Division) received your Acreage Reduction Request (AR-07) package for the Pueblo West Pit, Permit No. M-1977-573. Preliminary review of the information received determined that the following items must be received before the Division can consider your request as being submitted/filed and notices can be mailed.

1. In the release request packet the Operator submitted a new permit boundary map with a date of August 24, 2017 that indicates that the new permit acreage after release would be 124.27 acres. However, in the narrative the new permit acreage after release is indicated to be 123.37 acres. Please clarify this discrepancy and update the narrative.
2. Currently, the approved permit acreage is 127.75 acres. Please revise the release request acreage to indicate the final permit acreage pending the answer to #1 above.

Your AR-07 application will not be considered submitted until the information listed above is received and found sufficient to mail notices. You have thirty (30) days from the date of this letter to submit all requested documentation.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
