RE: Orchard Grove Industrial Pit, Permit No. M-1990-094, Inspection Problem Abated

Dear Mr. Doody:

On April 9, 2019 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. General compliance with mine plan was cited as a problem for having a mining and reclamation plan that needed updates. Corrective actions required you submit a technical revision and update the mining and reclamation plans by the corrective action date.

On August 26, 2019 the Division approved TR-2. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me.
