RE: Chambers Gravel Pit (Yvonne), Permit No. M-1979-075, Inspection Problem Abated

Dear Mr. Burkey:

On February 14, 2019 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Signs and markers was cited as a problem for a discrepancy in affected land boundaries, pursuant to Rule 3.1.12(2). Corrective actions required you file with the Division a Technical Revision clarifying the correct boundary of affected lands by the corrective action date.

On August 29, 2019 the Division approved TR-5 submitted on August 27, 2019 which acknowledged overlapping permit boundaries. This satisfies the corrective action and it is considered abated. Please note that the site remains permitted for 53.10 acres until an acreage reduction request is submitted and approved.
