*RE: J-2 Contracting Company. – DPG Pit – Permit No. M-2019-028
112(c) Permit Application
Adequacy Review No. 1 Response*

Dear Ms. Eschberger,

J-2 Contracting Company (J-2) has received the Division's Adequacy Review No. 1 comments letter dated July 10, 2019. Below are the comments and the corresponding responses that have been provided to address the comments.

Application Form:

- 1) Throughout the application form, the Applicant/Operator or Company Name is written as "J-2 Contracting Co." (pages 1, 3, and 8). However, the company name is registered with the Colorado Secretary of State as "J-2 Contracting Company". The company name given in the application form must be written exactly the same as it is registered with the state. Therefore, please provide revised pages 1, 3, and 8 with the company name written as "J-2 Contracting Company".

Response: The application has been revised to "J-2 Contracting Company".

- 2) On page 2, under item no. 9, the applicant must provide location information for the center of the area where the majority of mining will occur. The applicant included Section 11, Township 5 N, Range 65 W, the NE quarter of the SW quarter. However, in reviewing the legal description and maps submitted for the proposed affected lands, it appears the center of the area where the majority of mining will occur would be more accurately described as the NE quarter of the NW quarter of Section 12. Please revise page 2 as necessary to reflect the correct location information.

Response: The application has been revised to state that the center of the area is the NE quarter of the NW quarter of Section 12.

- 3) On page 8, a corporate seal must be provided for a corporation. If a corporate seal is available for J-2 Contracting Company, please provide it on the revised page 8.

Response: The application has been revised to include J-2 Contracting Company's corporate seal.
