Re: Grisenti Farms Gravel Pit, Permit No. M-2001-005;
Preliminary Adequacy Review, Technical Revision No. 4 (TR-04)

Attn: Tim Cazier

Below are the answers to the questions regarding the referenced technical revision:

1. Island Backfill: The request indicates the island will be constructed by adding backfill to the proposed location. The DRMS requires the following information in order to estimate impacts to the financial warranty: a. What is the source of the backfill material, and

Answer: Dirt on site will be used to complete the island

- b. How much backfill is required?

Answer: 8000 Cubic Yards

2. Island Seeding: The request indicates the island will be seeded using the approved seed mix. The DRMS assumes this area was previously proposed to be open water. For the purpose of estimating the required amount of seed, what is the proposed surface area of the island?

Answer: less than 0.2 acres acres

Sincerely,

Gerald Schnabel

President
