Hi Rob. Basil is waiting on upper management approval before making the change, but we wanted to make sure that the current signs could remain in place and Basil wouldn't have to revise and replace them? Are there any other changes that you could foresee with the status change from Temp. Cessation to Active? Thanks.

Thanks, Tamme.

Jason and I assumed you guys would have to check with your management on this, so not a big hurry.

I do not believe that the status change will prompt any other changes, but please tell me what your current signs say. Do they indicate anything related to a TC status?

Thanks again,
Rob

Rob:
Let me get back to you on that tomorrow.

They just say the records are available at DRMS' office in Denver as opposed to at the mine office. That still makes sense given the skeleton crew working at the mine and the 4-day work week.

I see what you mean, but the signs need to be updated. Perhaps you can put a sticker on them.

Rob:

We are good with going to "Active" status for Bowie 2 Mine. As for the signs, I have all the old signs but will need to change the phone number. I will be covering the old phone numbers with a sticker showing the new number (970-986-6236)
