2019 Moores Mining, LLC Annual Report

Mining in 2018 and 2019 has continued at a slow but steady pace. The old scales have been removed and mining has primarily taken place in the area under the old scales and is expected to take a year or more to mine that area. At the present rate it is not anticipated to open any new ground in the next year. The south side slope of that area will be reclaimed when the area is mined out but may take a year or more to mine the area so reclamation may start whenever that happens.
