Re: *Horsefly Rock Source, File No. M-2019-010, Limited Impact (110) Reclamation Permit Application, Receipt of Public Comment or Objection*

Dear Mr. and Mrs. Bergman,

On September 5 2019 the Division of Reclamation, Mining and Safety (Division) has received your objection to the application for a Limited Impact (110) Reclamation Permit Application known as the Horsefly Rock Source located in Ouray County. Thank you for taking the time to be involved in the public process. September 9, 2019 was the final day for comments to be submitted and your comments were received and considered timely pursuant to Construction Materials Rule 1.7.1(2)(c).

Please note that although your letter does not explicitly state that you object, all comments in opposition must be treated as such. If you wish for your objection to be treated as a general comment rather than an objection you must notify the Division in writing. If no clarification is received the Division will move forward with the objection process and list you as a party accordingly.

Your objections have been forwarded to the Applicant to be addressed. You will be notified when a response is received. If you have any questions, concerns or need any additional information please contact me at the Division's Grand Junction Field Office 101 South 3rd Street, Suite 301, Grand Junction, Colorado 81501. I can also be reached by phone at (970)-243-6368 or by email at lucas.west@state.co.us.

Sincerely,

Lucas West
Environmental Protection Specialist
Division of Reclamation, Mining and Safety
