RE: Flying Triangle Rand Pit, File No. M-2008-018 , Change of Status (CS-1) Acknowledgement-End of TC-1 and Commencement of Final Reclamation

Dear Mr. Henderson:

The Division of Reclamation Mining and Safety (Division) received your letter dated September 20, 2019. On September 23, 2019, the Division updated the above-mentioned site status to final reclamation per your request. This letter is to notify you that you are no longer in Temporary Cessation (TC-1) and final reclamation shall be completed within five (5) years pursuant to Rule 3.1.3.

Regarding the requirements of final reclamation, please review your approved reclamation plan. A copy of which can be obtained via drmsweblink.state.co.us/. Enter your permit number M2008018 on the left hand side and search.

Regarding leaving stockpiled material after final reclamation and permit termination that would require a Technical Revision (TR) to the reclamation plan. Attached is the cover letter form. The majority of the site will still need to be reclaimed to the post-mining land use of rangeland however; some stockpiles could remain on site for future use by the property owner. Note that the material cannot leave the property or be sold after permit termination. Your TR should specify; the type of material, amount to remain, location of storage, acreage not being reclaimed as a result of the storage, how the material will be stored/stabilized and a commitment that the material will remain on site to be used for personal use.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 303-866-3567 Ext 8183 or via email at amy.yeldell@state.co.us
