**Re: Gold Hill Mill, Permit No. M-1994-117, Colorado Milling Company, LLC
Notice of Approval Decision for a 110(2) Amendment Application (Revision No. AM-1)**

Dear Party and/or Interested Person:

As you were noticed on June 12, 2019, the Amendment application (AM-1) submitted for the above referenced permit was denied by the Division on that date, after it was determined AM-1 did not satisfy the requirements of the Act. This notice also informed you that the operator's failure to obtain approval of AM-1 was considered a possible violation for failure to comply with the conditions of an order, permit or regulation pursuant to C.R.S. 34-32-124(1), and accordingly, the matter was set for consideration by the Mined Land Reclamation Board (Board) at its June 26-27, 2019 meeting.

Please be informed, during the June 26, 2019 hearing, the Board found the operator to be in violation of C.R.S. 34-32-124(1) and 34-32-118(1)(b) for failure to comply with the conditions of a Board Order, specifically the corrective actions in the Board's Order issued for violation No. MV-2017-036. However, the Board also ordered the Division to stay its denial of AM-1 for 90 days from the date of the hearing (to September 24, 2019) to allow the operator additional time to address the remaining adequacy issues. A copy of the Board Order for this hearing which was mailed to the operator on August 13, 2019 is enclosed for your review.

During the extended 90-day review period for AM-1, the Division issued a 5th Adequacy Review letter to the operator on July 23, 2019, and the operator submitted a response to this letter on September 16, 2019. After reviewing the materials submitted, the Division determined the operator had sufficiently addressed all remaining adequacy items for AM-1. Therefore, on September 18, 2019, the Division approved AM-1.

In accordance with Rule 1.4.11, if you wish to appeal the Division's decision on this Amendment application, you must petition for a hearing before the Board within sixty (60) days of the date of the Division's decision (by November 17, 2019). Such a petition for a hearing must state how you are directly and adversely affected or aggrieved by the Division's decision, and how your interests are entitled to protection under the Act. The petition must list and explain any issues you believe should be considered by the Board at the Hearing on the matter. The petition must also specifically state the application or file number assigned by the Division (Permit No. M-1994-117, Amendment Application No. 1).

If you have any questions, you may contact me by telephone at 303-866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Dear Party and/or Interested Person:

As you were noticed on June 12, 2019, the Amendment application (AM-1) submitted for the above referenced permit was denied by the Division on that date, after it was determined AM-1 did not satisfy the requirements of the Act. This notice also informed you that the operator's failure to obtain approval of AM-1 was considered a possible violation for failure to comply with the conditions of an order, permit or regulation pursuant to C.R.S. 34-32-124(1), and accordingly, the matter was set for consideration by the Mined Land Reclamation Board (Board) at its June 26-27, 2019 meeting.

Please be informed, during the June 26, 2019 hearing, the Board found the operator to be in violation of C.R.S. 34-32-124(1) and 34-32-118(1)(b) for failure to comply with the conditions of a Board Order, specifically the corrective actions in the Board's Order issued for violation No. MV-2017-036. However, the Board also ordered the Division to stay its denial of AM-1 for 90 days from the date of the hearing (to September 24, 2019) to allow the operator additional time to address the remaining adequacy issues. A copy of the Board Order for this hearing which was mailed to the operator on August 13, 2019 is enclosed for your review.

During the extended 90-day review period for AM-1, the Division issued a 5th Adequacy Review letter to the operator on July 23, 2019, and the operator submitted a response to this letter on September 16, 2019. After reviewing the materials submitted, the Division determined the operator had sufficiently addressed all remaining adequacy items for AM-1. Therefore, on September 18, 2019, the Division approved AM-1.

In accordance with Rule 1.4.11, if you wish to appeal the Division's decision on this Amendment application, you must petition for a hearing before the Board within sixty (60) days of the date of the Division's decision (by November 17, 2019). Such a petition for a hearing must state how you are directly and adversely affected or aggrieved by the Division's decision, and how your interests are entitled to protection under the Act. The petition must list and explain any issues you believe should be considered by the Board at the Hearing on the matter. The petition must also specifically state the application or file number assigned by the Division (Permit No. M-1994-117, Amendment Application No. 1).

If you have any questions, you may contact me by telephone at 303-866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Notice of Approval Decision for a 110(2) Amendment Application (Revision No. AM-1)**

Dear Party and/or Interested Person:

As you were noticed on June 12, 2019, the Amendment application (AM-1) submitted for the above referenced permit was denied by the Division on that date, after it was determined AM-1 did not satisfy the requirements of the Act. This notice also informed you that the operator's failure to obtain approval of AM-1 was considered a possible violation for failure to comply with the conditions of an order, permit or regulation pursuant to C.R.S. 34-32-124(1), and accordingly, the matter was set for consideration by the Mined Land Reclamation Board (Board) at its June 26-27, 2019 meeting.

Please be informed, during the June 26, 2019 hearing, the Board found the operator to be in violation of C.R.S. 34-32-124(1) and 34-32-118(1)(b) for failure to comply with the conditions of a Board Order, specifically the corrective actions in the Board's Order issued for violation No. MV-2017-036. However, the Board also ordered the Division to stay its denial of AM-1 for 90 days from the date of the hearing (to September 24, 2019) to allow the operator additional time to address the remaining adequacy issues. A copy of the Board Order for this hearing which was mailed to the operator on August 13, 2019 is enclosed for your review.

During the extended 90-day review period for AM-1, the Division issued a 5th Adequacy Review letter to the operator on July 23, 2019, and the operator submitted a response to this letter on September 16, 2019. After reviewing the materials submitted, the Division determined the operator had sufficiently addressed all remaining adequacy items for AM-1. Therefore, on September 18, 2019, the Division approved AM-1.

In accordance with Rule 1.4.11, if you wish to appeal the Division's decision on this Amendment application, you must petition for a hearing before the Board within sixty (60) days of the date of the Division's decision (by November 17, 2019). Such a petition for a hearing must state how you are directly and adversely affected or aggrieved by the Division's decision, and how your interests are entitled to protection under the Act. The petition must list and explain any issues you believe should be considered by the Board at the Hearing on the matter. The petition must also specifically state the application or file number assigned by the Division (Permit No. M-1994-117, Amendment Application No. 1).

As you were noticed on June 12, 2019, the Amendment application (AM-1) submitted for the above referenced permit was denied by the Division on that date, after it was determined AM-1 did not satisfy the requirements of the Act. This notice also informed you that the operator's failure to obtain approval of AM-1 was considered a possible violation for failure to comply with the conditions of an order, permit or regulation pursuant to C.R.S. 34-32-124(1), and accordingly, the matter was set for consideration by the Mined Land Reclamation Board (Board) at its June 26-27, 2019 meeting.

Please be informed, during the June 26, 2019 hearing, the Board found the operator to be in violation of C.R.S. 34-32-124(1) and 34-32-118(1)(b) for failure to comply with the conditions of a Board Order, specifically the corrective actions in the Board's Order issued for violation No. MV-2017-036. However, the Board also ordered the Division to stay its denial of AM-1 for 90 days from the date of the hearing (to September 24, 2019) to allow the operator additional time to address the remaining adequacy issues. A copy of the Board Order for this hearing which was mailed to the operator on August 13, 2019 is enclosed for your review.

During the extended 90-day review period for AM-1, the Division issued a 5th Adequacy Review letter to the operator on July 23, 2019, and the operator submitted a response to this letter on September 16, 2019. After reviewing the materials submitted, the Division determined the operator had sufficiently addressed all remaining adequacy items for AM-1. Therefore, on September 18, 2019, the Division approved AM-1.

In accordance with Rule 1.4.11, if you wish to appeal the Division's decision on this Amendment application, you must petition for a hearing before the Board within sixty (60) days of the date of the Division's decision (by November 17, 2019). Such a petition for a hearing must state how you are directly and adversely affected or aggrieved by the Division's decision, and how your interests are entitled to protection under the Act. The petition must list and explain any issues you believe should be considered by the Board at the Hearing on the matter. The petition must also specifically state the application or file number assigned by the Division (Permit No. M-1994-117, Amendment Application No. 1).

If you have any questions, you may contact me by telephone at 303-866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Notice of Approval Decision for a 110(2) Amendment Application (Revision No. AM-1)**

Dear Party and/or Interested Person:

As you were noticed on June 12, 2019, the Amendment application (AM-1) submitted for the above referenced permit was denied by the Division on that date, after it was determined AM-1 did not satisfy the requirements of the Act. This notice also informed you that the operator's failure to obtain approval of AM-1 was considered a possible violation for failure to comply with the conditions of an order, permit or regulation pursuant to C.R.S. 34-32-124(1), and accordingly, the matter was set for consideration by the Mined Land Reclamation Board (Board) at its June 26-27, 2019 meeting.

Please be informed, during the June 26, 2019 hearing, the Board found the operator to be in violation of C.R.S. 34-32-124(1) and 34-32-118(1)(b) for failure to comply with the conditions of a Board Order, specifically the corrective actions in the Board's Order issued for violation No. MV-2017-036. However, the Board also ordered the Division to stay its denial of AM-1 for 90 days from the date of the hearing (to September 24, 2019) to allow the operator additional time to address the remaining adequacy issues. A copy of the Board Order for this hearing which was mailed to the operator on August 13, 2019 is enclosed for your review.

During the extended 90-day review period for AM-1, the Division issued a 5th Adequacy Review letter to the operator on July 23, 2019, and the operator submitted a response to this letter on September 16, 2019. After reviewing the materials submitted, the Division determined the operator had sufficiently addressed all remaining adequacy items for AM-1. Therefore, on September 18, 2019, the Division approved AM-1.

In accordance with Rule 1.4.11, if you wish to appeal the Division's decision on this Amendment application, you must petition for a hearing before the Board within sixty (60) days of the date of the Division's decision (by November 17, 2019). Such a petition for a hearing must state how you are directly and adversely affected or aggrieved by the Division's decision, and how your interests are entitled to protection under the Act. Notice of Approval Decision for a 110(2) Amendment Application (Revision No. AM-1)**

Dear Party and/or Interested Person:

As you were noticed on June 12, 2019, the Amendment application (AM-1) submitted for the above referenced permit was denied by the Division on that date, after it was determined AM-1 did not satisfy the requirements of the Act. This notice also informed you that the operator's failure to obtain approval of AM-1 was considered a possible violation for failure to comply with the conditions of an order, permit or regulation pursuant to C.R.S. 34-32-124(1), and accordingly, the matter was set for consideration by the Mined Land Reclamation Board (Board) at its June 26-27, 2019 meeting.

Please be informed, during the June 26, 2019 hearing, the Board found the operator to be in violation of C.R.S. 34-32-124(1) and 34-32-118(1)(b) for failure to comply with the conditions of a Board Order, specifically the corrective actions in the Board's Order issued for violation No. MV-2017-036. However, the Board also ordered the Division to stay its denial of AM-1 for 90 days from the date of the hearing (to September 24, 2019) to allow the operator additional time to address the remaining adequacy issues. However, the Board also ordered the Division to stay its denial of AM-1 for 90 days from the date of the hearing (to September 24, 2019) to allow the operator additional time to address the remaining adequacy issues. A copy of the Board Order for this hearing which was mailed to the operator on August 13, 2019 is enclosed for your review.

During the extended 90-day review period for AM-1, the Division issued a 5th Adequacy Review letter to the operator on July 23, 2019, and the operator submitted a response to this letter on September 16, 2019. After reviewing the materials submitted, the Division determined the operator had sufficiently addressed all remaining adequacy items for AM-1. Therefore, on September 18, 2019, the Division approved AM-1.

In accordance with Rule 1.4.11, if you wish to appeal the Division's decision on this Amendment application, you must petition for a hearing before the Board within sixty (60) days of the date of the Division's decision (by November 17, 2019). Such a petition for a hearing must state how you are directly and adversely affected or aggrieved by the Division's decision, and how your interests are entitled to protection under the Act. The petition must list and explain any issues you believe should be considered by the Board at the Hearing on the matter. The petition must also specifically state the application or file number assigned by the Division (Permit No. M-1994-117, Amendment Application No. 1).

**Re: Gold Hill Mill, Permit No. M-1994-117, Colorado Milling Company, LLC
Notice of Approval Decision for a 110(2) Amendment Application (Revision No. AM-1)**

Dear Party and/or Interested Person:

As you were noticed on June 12, 2019, the Amendment application (AM-1) submitted for the above referenced permit was denied by the Division on that date, after it was determined AM-1 did not satisfy the requirements of the Act. This notice also informed you that the operator's failure to obtain approval of AM-1 was considered a possible violation for failure to comply with the conditions of an order, permit or regulation pursuant to C.R.S. 34-32-124(1), and accordingly, the matter was set for consideration by the Mined Land Reclamation Board (Board) at its June 26-27, 2019 meeting.

Please be informed, during the June 26, 2019 hearing, the Board found the operator to be in violation of C.R.S. 34-32-124(1) and 34-32-118(1)(b) for failure to comply with the conditions of a Board Order, specifically the corrective actions in the Board's Order issued for violation No. MV-2017-036. However, the Board also ordered the Division to stay its denial of AM-1 for 90 days from the date of the hearing (to September 24, 2019) to allow the operator additional time to address the remaining adequacy issues. A copy of the Board Order for this hearing which was mailed to the operator on August 13, 2019 is enclosed for your review.

During the extended 90-day review period for AM-1, the Division issued a 5th Adequacy Review letter to the operator on July 23, 2019, and the operator submitted a response to this letter on September 16, 2019. After reviewing the materials submitted, the Division determined the operator had sufficiently addressed all remaining adequacy items for AM-1. Therefore, on September 18, 2019, the Division approved AM-1.

In accordance with Rule 1.4.11, if you wish to appeal the Division's decision on this Amendment application, you must petition for a hearing before the Board within sixty (60) days of the date of the Division's decision (by November 17, 2019). Such a petition for a hearing must state how you are directly and adversely affected or aggrieved by the Division's decision, and how your interests are entitled to protection under the Act. The petition must list and explain any issues you believe should be considered by the Board at the Hearing on the matter. The petition must also specifically state the application or file number assigned by the Division (Permit No. M-1994-117, Amendment Application No. 1).

If you have any questions, you may contact me by telephone at 303-866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Sincerely,
